

Blessed Trinity Catholic School

Trinity Enrichment Math

2026 Summer Work

Practicing grade level math work is essential to enforcing student understanding and improving student efficiency with math concepts. Consistently engaging in math practice throughout the summer keeps the brain thinking and helps to minimize learning loss. This also ensures that the students are prepared when math lessons start up again and the work provides the teacher with important data used to guide instruction.

Summer math assignment:

**At least 1 Teacher Assigned
i-Ready lesson per week**

- Students are to use their i-Ready login information from the 2025–2026 school year. Please e-mail Mrs. Kenna if you no longer remember it.
- If a student misses a week, they need to make it up before the end of Summer.
- Students may choose to complete more than the minimum requirement. It is recommended that in addition to the teacher assigned lessons, students also work in the “My Path” area.
- Please note that students will have i-Ready throughout June and July. The first weeks in August will not require an i-Ready lesson.

Please direct any questions regarding this assignment to Mrs. Kenna at kenna.s@blessed-trinity.org.

Have a blessed summer!

“Succeeding together through Catholic formation, academics, athletics, and a community that brings all to Christ.”
